

Dear Commissioners,

If you must vote on June 2, 2003, vote against liberalizing ownership of media outlets. Please do not do to television what you did to radio. I remember what happened to local radio stations in the 80's and 90's - their largely gone. With the exception of a few college stations, most of what is available is bland, uninformative hype. No real content, just hype. And, under no circumstances should my local newspaper content be controlled by the same corporations which control my local broadcast station.
